To: Julie McCabe BA, NRP
Battalion Chief
City of Charleston Fire Department

From: Rayshaun Williams, Ed. S.; NREMT
Division of EMS & Trauma

Re: South Carolina CEU Award Letter
2024 SC Fire Rescue Courses

The Division of EMS and Trauma of the South Carolina Department of Health and Environmental Control is pleased to inform you the above-mentioned training has been approved for the following Continued Education Units (CEUs) based on NREMT's 2016 NCCR Standards. Please see the attached hours assigned.

Please note, no individual may exceed the total hours (page 2) of Individual, State, or Local hours for NREMT Re-certification.

This training is approved for all levels of certified emergency medical technicians. As the CEU provider, you must be able to provide documentation to participating prehospital providers of the credit awarded, at the request of the participant, for a minimum of thirty-six (36) months after completion of each activity. When an approved CEU provider issues a certificate, transcript, or other means of documentation, it must reflect the actual number of credits claimed by the participant and not just automatically record the designated maximum credits for the activity. If the instructor qualifications or course content changes after Department approval, you must submit a new application for CEU approval.

The assigned DHEC Identification for your training is **2024 _SCFRC_SCDHEC**. It is your responsibility to ensure the assigned identification appears on all corresponding credit(s) awarded. Should you have any additional questions, please contact the Department.

Respectfully,

Rayshaun Williams Ed.S.; M.Ed.

Training and Compliance Manager, Division of EMS & Trauma
